TITLE OF THE ARTICLE

ANNA AUTHOR AND BEN M. WRITER

ABSTRACT. An abstract should give concise information about the content of your paper. It should be informative and not only present the general scope of the paper but also indicate the main results and conclusions. An abstract should normally not exceed 200 words. It should not contain bulky equations, bibliography citations, references to the equations, tables or figures.

INTRODUCTION

In introduction you may present the subject of your paper, indicate the scope of the subject, present the goals of your paper.

Do not read this text please. This is only an example. Do not read this text please. This is only an example. Do not read this text please. This is only an example. Do not read this text please. 1. THIS IS A SECTION

So, we have a numbered equation

$$\sum_{n=0}^{\infty} \frac{x^n}{n!} = e^x \tag{1}$$

and an inline equation $e^{x+y} = e^x e^y$.

2. ANOTHER SECTION

Lemma 1. *Let x be a real number, i.e., $x \in \mathbb{R}$. Then we have...*

From Lemma 1 it follows that...

Theorem 1. *What a wonderful theorem! What a wonderful theorem! What a wonderful theorem!*

Proof. The proof is based on the sieve method, see details in the book [3]. One can find the proof of the Riemann conjecture in [1]. □

3. Yet another section

You may include figures and tables in your paper. There exist many possibilities to achieve this goal.

FIGURE 1. This is a figure

Only black and white pictures should be used.

TABLE 1. This is a table

x	x^2
1	1
10	100
100	10000

4. Example of references and citing

This is an example of references: Eq. (1), Fig. 1 and Table 1.

You can find an example of citing the book [3] and the article [1] in Section 2.

5. Last section

In bibliography, the titles of the papers should be written in their original language with translation into English [in square brackets], see, e.g., [2]. We can use Latin and Cyrillic alphabets. Please, excuse us, but hieroglyphs cannot be reproduced. So, please use the English translation of the title with the inscription of their original language (in parentheses), see, e.g., [4].
